

## GARAGE DOOR PAINT

If your car is your pride and joy, give it a home to be proud of with **Hammerite** Garage Door Paint. Specially formulated for use on metal and wooden doors, it provides a beautiful gloss finish that's highly resistant to flaking and discolouration.

- Easy to apply to vertical surfaces, sag resistant
- Tough & durable
- 750ml

## DIRECT TO GALVANISED METAL PAINT SMOOTH FINISH

**Hammerite** Direct to Galvanised Metal Paint has been specially formulated as a primer, undercoat and topcoat in one, making it the effortless way to enhance non-ferrous metals such as aluminium, copper, brass & galvanised steel.

- Glossy, smooth finish
- Can be applied directly onto non-rusting metals
- No primer required
- One coat application
- 750ml

## HAMMERITE PRIMERS

### NO.1 RUST BEATER

Ideal for heavily rusted areas, **Hammerite** No.1 Rust Beater kills rust, primes and undercoats all in one.

- Suitable for large and heavily pitted areas of rust
- Can be applied directly on to rust
- Compatible with most topcoats
- Available in beige, dark brown & grey.
- Available in a variety of sizes

### SPECIAL METALS PRIMER

Specially formulated to promote adhesion on non-ferrous metal surfaces.

- Quick and easy to use
- Only one coat required
- Topcoat can be applied after 1-2 hours
- Colour – Red
- 250ml, 500ml

### RED OXIDE PRIMER

A high performance primer for rusty or clean iron and steel.

- Special anti-corrosive formulation
- For interior and exterior use
- Provides a smooth protective base for overcoating with minimal sanding
- Topcoat after 6 hours
- 250ml, 500ml

We have reproduced paint colours as accurately as printing will allow. Unfortunately we cannot guarantee an exact colour match and the colours contained in this guide should not be relied on as such. The appearance of the actual colour can be affected by the substrate and the texture of the surface. Try the product on a small inconspicuous area of the surface before undertaking full application.

Special precautions should be taken during surface preparation of pre-1960s paint surfaces over wood and metal as they may contain harmful lead. For further advice contact ICI Paints AkzoNobel.

# HAMMERITE

## Apply directly to metal

**Hammerite** Direct to Rust Metal Paint can be painted directly onto metal, including rusty surfaces. Thanks to its special 3 in 1 formula there is no need to use a primer or undercoat - saving you precious time!

**Hammerite** gives long-lasting protection, resisting rust for up to 8 years.

It is suitable for use on a wide range of metal surfaces including gates, railings, drainpipes, garden furniture and other metal items in your home.

Rain runs off surface	Rain remains on surface
