

# **Acid Etch Solution**

#### DESCRIPTION

A pre-treatment for concrete surfaces which improves adhesion prior to painting with the appropriate floor coating.

## RECOMMENDED USES

Removes excess lime from the surface and etches power floated or very smooth concrete. Do not use on case hardened concrete.

## SPECIAL PROPERTIES

Etches surfaces to improve adhesion of floor coatings.

#### COLOUR RANGE

Not applicable.

#### FINISH

#### **VOLUME SOLID**

Not applicable.

Not applicable.

#### COVERAGE

Johnstone's Acid Etch Solution will treat approximately 20 square metres per litre.

## DRYING TIME

Not applicable.

#### TRANSPORTATION & STORAGE

To avoid the risk of spillage always store and transport in a secure upright position. STORE AWAY FROM HEAT AND FLAME.

## THINNER

Not applicable.

# VOC CONTENT

Not applicable.

## FILM THICKNESS

Wet: not applicable, Dry: not applicable.

## SIZE

5 Litre

#### PREPARATION

Concrete surfaces should be clean and degreased before application using detergent wash or steam cleaning and rinsed with fresh water before application of Johnstone's Acid Etch Solution.

# APPLICATION

Apply evenly by soft brush and allow time to react. Two or more applications may be required depending on the amount of laitance present. After the reaction has taken place, the surface should be rinsed with water to remove loose particles and all soluble materials, until the washings are acid free as shown by a suitable indicator paper, and allowed to dry before priming.

#### CLEANING

Remove as much product as possible from application equipment before cleaning. Replace lid firmly. Clean all equipment immediately after use with plenty of clean water. Some local authorities have special facilities for the disposal of waste coatings. Do not empty product into drains or watercourses.

## PRECAUTIONS

- CONTAINS HYDROCHLORIC ACID.
- Use only in well ventilated areas.
- Avoid contact with skin and eyes.
- In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.
- After contact with skin, wash immediately with plenty of water.
- Wear suitable protective clothing, gloves and eye/face protection.
- If swallowed, seek medical advice immediately and show the container or label.
- Keep out of the reach of children.
